The Row Over the Rebellion Records.

Mills's Tariff Bill to Be Favorably Reported.

Amendments Proposed by the Ways and Means Committee.

on-Recommendations by the House mmittee on Public Lands-Congressional Proceedings.

By Telegraph to the Temes.

WASHINGTON, March 22.—[By the Associated Press.] A sub-committee of the House Committee on Military Affairs was organized today to begin inquiry into the matters alleged in the Grosvenor resolution touching the insertion of unofficial lists in the rebellion records. Mr. McCutcheon submitted a memorandum of the facts in the case as revealed by the records. They relate entirely to the Fifteenth Pennsylvania cavairy at the battle of Murfreesboro. It is stated that in the appendix of volume as having gone to the front and having been engaged in the battle of Murfreesboro when the body of the same volume shows a list of about 200 of those engaged. It is stated that while the list given in the appendix purports to have formed part of an official report to Gen, Rosecrans, it is merely an article which appeared in several Philiadelphia newspapers. PUBLIC LANDS.

Favorable Reports Ordered by the House Committee.

WASHINGTON, March 22.—[By the Associated Press.] Favorable reports were ordered by the House Committee on Public Lands on the following resolutions: Buchanan's, calling on the Secretary of the Interior for information in regard to alleged frauds perpetrated by the California Redwood Company; White's, calling for information respecting Rocky Mountain forest lands; White's, calling for the report of Special Agent Bowen on timber lands; Peter's, calling for information in regard to certain delays in entries of public lands, and one by Anderson of Kansas, calling for information in regard to the condition of land granted in aid of the Pacific railroad companies. This last resolution was amended by striking out the last paragraph, directing the committee to frame a bill declaring the forfeiture of grants, which was done because the master is already under consideration by the committee in connection with the general subject of forfeitures.

THE FISHERIES DISPUTE.

A Message from the President on the Subject.

Washington, March 22.—[By the Associated Press.] The President sent a message to the Senate today in reply to the resolution introduced by Senator Frye on the 16th instant, requesting the President to transmit to the Senate copies of the minutes and daily protocols of the meetings of the Commissioners who negotiated the fisheries treaty today with Great Britain. He inclosed a copy of a letter received from the Secretary of State, which says in substance that the President's message of March 5th, and the documents transmitted with it, placed the Senate in full possession of the documentary history of the conference. Every point is covered by those papers, except the question of damages sustained by American fishermen, which, being met by a counter claim for damages to British years. or the documentary in the description of the documentary in the description of damages sustained by American fishermen, which, being met by a manufacture for damages to British ressels

## MILLS'S TARIFF BILL

A Favorable Report to Be Made to the House.

Washington, March 22.—[By the Associated Press.] The Committee on Ways and Means today formally directed a favorable report for the Mills tariff bill. The bill was amended this morning at the instance of the Demecratic members as follows: Tweaty-five per cent. duty on tarletans, mulls and crinolines, changed to the present duty of 40 per cent.; the duty on paddy was fixed at 1 per cent. per pound; whiting and Paris white was stricken from the free list and the duty fixed at 20 per cent. ad valorem; linseed was removed from the free list and the duty fixed at 10 cents per gallon; fire brick was also excepted from the free list. The committee adjourned subject to the call of the chairman. The present understanding is that the bill will be reported to the House Saturday.

'549 SOUTH SPRING STREET, LOS AN "GELES, March 14. "GKLES, March 14.

"Col. Eugene Germain, President Board of Trade—MY DEAK SIR: Has your attention been called to the charity kindergart-n work of San Francisco? This work has seemed so important to the Produce Exchange of that eity that it has taken upon itself the support of one class, on Jackson street, under the Goiden Gate Kindergarten Association. These men of business look upon these schools as one of the methods of solving the vexed problem of dealing with the pauper class. Realizing that much of our charity was only helping hopelessly incompetent men and women to foist upon a burdened public four times as many hopelessly incompetent men and women to foist upon a burdened public four times as many hopelessly incompetent children; they saw in this system a way to train those children to self-helpfulness, thus relieving the future generation, and adding to the productive force. Senator Stanford, and his noble wife, too, place this kindergarten training at the foundation of their system of technical education which is to fit the boy or girl to earn their living, and not leave them helpless, as our present public school system does. In addition to this practical side, the charity kindergarten appeals to our emotions. It takes these tiny little ones, these babes from 3 to 7 years old, for a part of every day from wretched homes of poverty and vice, where they are neglected, brings them into the atmosphere of iove and order, amuses them, and makes a bright spot for them in their sad child lives. It trains the tiny supple fingers a bright spot for them in their work, and to look for reward in their cocupations. "We have been trying to establish these schools in the pover parts of this city. We have one school on Sansevain street, in the Congregational chapel, where 50 little ones are gathered every day. This school is supported by voluntary contributions, and the value of the work is not yet appreciated here. There are 30 such schools in San Francisco, but here it is hard to support one. I have thought that per

dressed to him should be sent to the latter signed.

"The headquarters of Mr. John R. Gott, assistant superintendent, are this day transferred from hos Angeles to San Bernardino. Mr. Gott will have charge of the train and section service and employes of these departments will report to him.

"D. McCoot, General Manager."

General Agent Dunn stated that he could not give any reason for Mr. Gott's transfer.

Ten days ago Mrs. Harris gave no symptoms whatever of the approaching malady, and was living peacefully and happily with her husband on the Electric tract. She was married in Grisley, Butte county 13 years ago, and they have had six children, three of whem have died.

Once before Mrs. Harris was sent to an insane asylum, so that the present attack cannot be said to have developed suddenly.

Judge Hutton, Drs. Haynes, Griswold, Clerk Hamilton, with Jalier Russell, the husband and a 6-year-old girl of the unhappy wife and mother appeared in the anteroom of the county prison, where she had been taken on becoming violently insane, to conform te the requirements of the law by an examination. An order having been made for her committal to Napa, she was taken, yesterday, by her husband on the northbound train for that place.

Mrs. Harris is only 32 years of age, and shows signs of having been a woman of great beauty before her terrible affliction. Her relatives, who are wealthy people, reside at Grisley, the place of her birth.

"The fourth annual Flower Festival will be formally opened at Hazard's Pavilion, corner of Fifth and Oliva streets, Los Angeles, on Tuesday, April 17th, 1885, at 8 p. in., and will continue for two weeks.

"The Woman's Home, Woman's Exchange, the Bureau of Information and restaurant, all established with the proceeds of the three previous flower-festivals, are now wholly self-supporting. A small debt was contracted in equipping the restaurant. After the payment of this debt and the reservation of a small emergency fund, the Flower Festival has decided to make that noble charity, the Los Angeles Orphans' Home, the beneficiary of the fourth annual Flower Festival.

clated Charities met in regular sassion at 2 o'clock yesterday afternoon in the Council chamber, with a majority of the members present, and J. R. Toberman in the chair. Minutes of previous meeting were read and approved.

W. B. Harriott reported that he had seen

a number of the proprietors of wood and coal yards, and had arranged with F. A. Salsbury, at 221 Spring street, to give tem-porary employment to all persons sent to him by the Associated Charities.

The treasurer reported that he had at tended to the mailing of 1900 circulars, and tended to the mailing or 1990 circulars, and had paid out \$19 for stamps. The treasury now contained \$66.

Mr. Harriott moved that an auditing committee be created. Motion was carried, and Messrs. Blackman, McLean and Stearn was consequent as members.

Messrs. Blackman, McLean and Stearn were named as members.
Dr. Schrieber took the floor and suggested that the time had come when a mass meeting in some of the public halls ought to be held, and a programme of addresses and music rendered by the members of the organization, so as to bring the association more prominently before the public and enlist their interest.
The suggestion was met very favorably, and on motion, a committee consisting of Col. Ayers, Mayor Workman, Mrs. Dodsworth. Mr. MacLean, Mrs. Ducomon, Dr. Schrieber and Maj. Stearn, were appointed to take the matter in charge and see what arrangements could be made for such an entertainment, and report progress at a called meeting next Thursday.
On motion of Mr. Harriott, the Finance Committee were instructed to select some gentleman suitable for the office of registrar, and render a report at the next meeting.
Mr. Biackman introduced the following resolution:

Mr. Blackman infroduces as few weeks resolution:
WHEREAS, during the past few weeks letters and comments have appeared in the columns of the press of this city relative to domestic and other female help directed to this portion of the State of California from England and other countries; and, WHEREAS, Mrs. Margaret Farker has been chiefly instrumental in advising women and others to seek these parts, by lecturing and personally influencing such to

men and others to seek these parts, by lecturing and personally influenting such to immigrate here; and, those who have arrived are badly disappointed, and unfit to seek their livelihood unassisted, and would gladly return, were they able; and Wherekas, there is, and slways will be, room for good, domesticated servants, at a fair salary, yet there is no need whatever for ladies seeking, positions as lady-helps, companions or housekeepers; therefore, it is

companions or housekeepers; therefore, it is

Resolved, that we, the Council of the Associated Charities of Los Angeles, advisedly urge that none who are not domesticated and trained servants come out to this country; that only trained and skilled labor of any kind is needed and likely to find employment, while those having capital cannot fail to find this the best place for safe investments; and it is further

Resolved, that, believing Mrs. Parker has only intended to benefit her country women, atill, we counsel her that some concerted plan of action be arranged with this side of the world before she sends out any other person or persons, as a wholesale forwarding of factory hands and such like will only be deprecatory to her good intentions, and a course we strongly condemn. It is further ing of factory hands and such like will onle deprecatory to her good intentions, and course we strongly condemn. It is furthe Resolved, that these resolutions by printed in the papers, and that copies be forwarded to Mrs. Parker and the Englishmens. intentions, amendment in intentions be

# &BURBANK!

# THE SECOND GRAND EXCURSION

Will Leave the Commercial-street Station at 10:30 a.m., Saturday, March 31, 1888.

Only 20 minutes' ride to Burbank. Returning, will reach Los Angeles at 3:30 p.m.

There will be no auction sale and no one will be asked to purchase property. Our only object is to afford an opportunity to all to see Burbank and for their own opinion from a personal examination of its merits. In this lively competition for public favor among the growing towns of Southern Call nia, the zealous (and sometimes jealous) advocate of his own town will detract from the merits of some rival locality that is pushing past him to the front. In this way some unfair statements have been put forth as to the merits of Burbank. So confident are we that a personal visis to Burbank will refute and silence all such statements, we have decided to run this pleasure excursion and invite every one to join us, spend a pleasant day, examine and decide for themselves. We have never had but one excursion, never employed a brass band nor had street parades; have offered no lottery schemes to tempt purchasers to invest. But, without any show or parade, we have in a few months sold over 900 town lots and 2000 acres of land adjoining, aggregation nearly \$600,000. In less than ten months a grain field has been converted into a growing, prosperous town of over 250 bons fide inhabitants. pure, clear and abundant, has been piped to every lot in the town. A 60-room hotel, a street car line one and a half miles in length completed and in operation, brick block erected, stores and bank building completed, a \$7000 schoolhouse under contract, two churches in process of construction, a furnisture manufactory to employ from 100 to 200 workmen and to be in operation by June 1st, and new dwellings being commenced every day, bespeak for Burbank a push and prosperity not surpassed by any town of its age in the State of California.

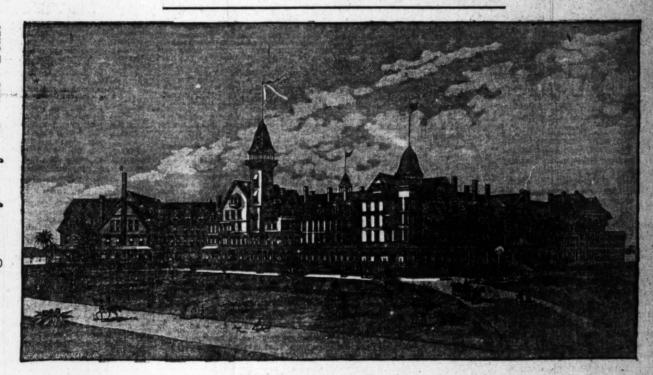

NOTE THE FACT: That Burbank is today the most properous suburb of Los Angeles; that Burbank will within 90 days have better and ches railroad communication with Los Angeles than any other suburban town; that Burbank will have the largest furniture factory on the Pacific Coast; that Burbank has the most perfect water system, the purest and a superabundance of water; that Burbank possesses a most equable climate, cool in su and warm in winter; that Burbank is the Commercial center of one of the most fertile and fruitful valleys in Southern California; that Burbank is rounded by a country that will grow all kinds of cereals and fruits, including oranges and lemons, olives and English walnuts; that the Ostrich Farm Motor Road will be completed to Burbank within 60 days.

OENSURING THE PRESS.

The Local Chamber of Commerce Wants the Papers to Keep Quiet.

[San Diego Union.]

At the meeting of the Chamber of Commerce last night, the committee to organize a Bureau of Statistics and Advertising assumed the rôle of press censorship, and in their report criticised San Diego papers for exposing crime and seeking to secure the enforcement of law. The argument was that the course of the papers tended to create a bad impression of San Diego abroad, and to prevent people from coming here to buy real estate and consume climate. It does not seem to have occurred to the gentlemen that it is the business of newspapers not to suppress news, but to publish it. If the news is not of a nature to do credit to the towns, that is not the fault of the newapapers that print it. The Union has printed the record of crimes as they have occurred. It has called attention to vice and crime, whose existence was as palpable as the daylight to everybody but the officials, whose sworn duty it was to punish and suppress them. It has been instrumental in compelling the official suppression of gambling. It has told of no crime that was not actually committed, called attention to no vice that did not exist. For its fearless course in these respects it has received in person and by letter the thanks of many of the best people of San Diego, who evidently agree with the Union that it is sometimes the duty of a newspaper to boom the morals of a place as well as its real estate.

An attempt was made by the committee to show that there was not more violence and crime in San Diego, who evidently agree with the Union that it is sometimes the duty of a newspaper to boom the morals of a place as well as its real estate.

An attempt was made by the committee to show that there was not more violence and crime in San Diego than in other towns in various parts of the country. It is to be borne in mind, however, that unpunished crime makes no statistics. Unenforced and unexecuted law makes no record. Statistics show the crime tha The society is unsectarian and cosolitan in character, and promise to aid materially in the work of caring and providing for the poor of our city. The life of the present Emperor of Germany appears to hang on a slender thread. He himself is working hard to get things in order before the dissolution, which he sees to be near. When he dies the outlook for Germany and Europe is by no means bright, unless the better sense of the German people should rise above the tradition and theories of centuries, and they should free themselves from autocratic rule.

Donohue was painting the cornice about one of the second story windows, and had rigged up a kind of scaffold by nailing supports on two other windows and laying a heavy plank upond them from one to the other. He was very careful in going out, but the structure appeared sufficiently strong, and he ventured upon it.

He had been at work about a minute, when, without warning, one of the supports gave way, and Donohue fell headlong to the ground, a distance of 30 feet, striking on his right shoulder. There was an outery by his fellow workmen, and a crowd rushed toward him. The heavy plank hung by one end for a brief moment, and then, before Donohue could be dragged away, fell upon him, cutting a gash in his head and breaking a rib. The blow on the head rendered him unconscious. By Telegraph to The Times.

SPOKANE FALLS (Wash.), March 22.—
The Evening Chronicle publishes a story of the killing of three prospectors by the Kootersi Indians as told by an Indian hunter. The men stopped for their noonday lunch on the Libby Creek trail, and a band of six Indians crept up behind and fired a number of shots, killing them. They then burned the bodies, the stench of which drew the hunter to the spot. They compelled him to swear silence, but afterward told the story around the council fire. The prospectors were poor, and had but two horses, and robbery seems not to have been the motive of the crime. The Indians probably became frenzied during the medicine dance, which had just taken place. A posse will be organized to pursue the murderers.

LETTERS TO THE TIMES.

Strikes, "Tiredness" and "Burlington Paralysis."

Los Angeles, March 21.—[To the Editor of The Times.] The people of the whole country are g titing very "ured and sick" of the schemes and jealousies of the so-called "capital" and "labor" interests or factions, all tending to demoralize business, and would gladily hail any change that promises an improvement and guarantee for the future. Now let the Government step in at once and acquire by fair purchase or condemnation the entire railway system of the United States, issuing in payment therefor its bonds. bearing interest at the rate of about 3 per cent. Then establish a department of transportation, fixing all rates in the interests of the people, enlisting all employés—firemen, engineers, conductors and others—for a term of years, subject to the articles of war, as in the army or navy, giving promotion for meritorious and faithful service, and pensions for disabilities through old age or accidents in the discharge of duty. Then "Burlington paralysis" would mean desertion, and a "strike" mutiny, pure and simple, and the remedy would be at hand. Let's try it.

BUILDING AT WRITTIER.

BUILDING AT WHITTIER.

The Extensive Operations of the Last Eight Months.
[Whittler Graphic.]

Some conception of the magnitude of the building operations in Whittler in the past eight months may be known by the amount of material used. The W. A. Vernon Lumber Company has sold nearly \$100,000 worth of lumber and material, and \$50,000 worth has been hauled from Los Angeles, Pasadena and other places. Most of it before Vernon started his planing mill. The brick used in the erection of eight two-story brick buildings, 24x60, several brick fronts and foundation walls have cost not less than \$50,000. The labor, paint, hardware, paper, etc., have cost at least \$100,000. The grading of streets and laying out of 12 miles of iron water pipes, \$50,000. Altogether for improvements there has been expended in eight months in Whistier \$350,000. To complete the buildings under way, including college and canning factory, will require \$150,000, making a grand total of half a million dollars (\$500,000). A very careful and conservative investigation shows that the lots in the original townsite, at the prices for which they have been actually sold, are worth \$602,905; Harvey & Ricker's addition, \$316,000; Sessions's and Strawbridge & Wiggins's addition, \$97,000; almost 600 acres adjoining the town, some of which has been subdivided, is well worth and will sell for \$480,000; making a total of \$1,555,950. Of the property mentioned, the original company own only 15 or 20 lots and one 10-acre tract. The balance of the \$1,555,950 has been invested by several thousand persons, each of whom is interested in the success of the place. The investment of over \$2,000,000 by several thousand persons is a sure guarantee of the permanent success and future prosperity of Whittier.

By Telegraph to The Times.
St. PAUL, March 22.—[By Associated Press.] The storm which raged Tuesday night and until this morning through portions of Dakota, Minnesota and Northern night and until this morning through portions of Dakota, Minnesota and Northern Wisconsin was one of the severest that has been experienced in the Northwest this winter. It consisted of a cold wave of unusual severity, accompanied by a heavy and cutting wind. In many places it was rendered worse by blinding snowstorms. In Minnesota, north of Crookston, and in Northwestern Dakota most of the roads were badly blockaded. Wherever there was any snow, it was badly drifted, and the rallroad tracks in numerous instances were covered to a depth of nine feet. were badly blockaded. THE MICHIGAN BLIZZARD.

MILWAUKEE (Wis.), March 22.—Reports from interior States Indicate that last night's blizzard was very severe. The thermometer ranged between 10° and 12° below. Not a wheel is moving on the upper Michigan Paninsula roads, except those propelling snowplows, which are nearly helpless. It is the most complete blockade of the winter in that section. The storm came so suddenly and fiercely that trains were unable to reach the next station. The hurricane was intensely cold.

MARQUETTE (Mich.), March 22.—One of
the worst blizzards of the winter set in last
night at an early hour and lasted until morning. Considerable snow fell, and rail-roads are greatly hampered in their opera-tions. The temperature ranged between seven and ten degrees below zero during the night at different points on the Peninsula.

A War Story.

During the summer of 1863, while the hospitals at Canton, Miss., were crowded with sick and wounded soldiers, the ladies visited them daily, carrying with them delicacies of every kind, and did all they could to cheer and comfort the suffering. On one occasion a pretty miss of 16 was distributing flowers and speaking gentle words of encouragement to those around her, when she overheard a soldier exclaim: "Oh, my Lord!"

Stepping to his bedside to rebuke him for his profanity, she remarked:

A lover of Thackeray, which means a man of some culture, is never tired of his works. He reads them again and again with new zest, because the style is so delightfully clear and polished. He took up his manuscript time after time to touch and retouch until his fastidious taste was satisfied.

In a few days everything will be ready for selection of the subscribed lots. Price lists and a list showing the order of selection which each subscriber holds will be furnished.

Only a portion of the property will be placed upon the market. This will be sold to subscribers at first prices, which will be increased from time to time, as the work of constructing the hotel, piers and other improvements progress.

The Santa Fe Company has completed the grade from Inglewood to Redondo Beach, and the road will be completed in a fed days. The material for the large wharf has arrived at the beach and a large force of men is there ready to commence its construction.

Work on the large hotel was commenced three weeks ago. The public should bear in mind that only a limited amount oppoperty is to be sold at this time at the prices to be fixed, and this amount is nearly subscribed for. Persons desiring lots who names are not in the list should call and make their subscription. A great many of our prominent citizens are only waiting for the railroad to commence running, when they expect to begin the erection of handsome cottages.

LUNG DISEASES.

A word to the wise is sufficient. Dr. Sweany of Philadelphia has arranged to combine the new method (Bergeon's) by gaseous enemata, for the cure of consumption and all diseases of the lungs and respiratory tract with his own system, hypernutrition, which he has practiced so successfully in Phila delphia, where thousands can testify to the success of his treatment; and now by combining the two systems Dr Sweany wishes to say to all people who are suffering with consum; asthma, dyspnoea, catarrh, blood poisons, etc., or any disease whatever of the respiratory organs, that "there is balm in Gilead." That with his combined treatment he can cure any and all cases of consumption and lung

A FEW EXPLANATORY NOTES.

The Burgeon treatment for consumption by gaseous enemata consists gas into the rectum, where it is immediately taken up by the veins and passes through the venous circulation to the liver, from thence to the heart passes through the venous circulation to the liver, from thence to the lungs, passing all of this distance through the venous blood, and reaches the lungs in a state of purity, where it can be detected in from one to four minutes after its administration into the rectum. If this gaseous substance should have to pass through arterial blood its powerful effects on the diseased lung tissue would be destroyed by the oxygen contained in arterial blood. There is no oxygen in venous blood until it reaches the lungs, where it receives its charge of oxygen from the air drawn into the lungs during the act of breathing; after which it passes from the lungs into the arterial circulation through the system, and finally reaches the rectum and other distal points again converted into venous blood having given up its oxygen to the system. The difference between arterial blood and and venous blood is oxygen, the former being loaded with it and the latter being devoid of it. It is upon this fact alone that Bergeon, the French physician, was able to make this method practicable; hence it is also that all of the inhalations are of little or mo value because, in order to reach the lungs, inhalations must be exposed to oxygen in its passage from the mouth 70 the lungs through the medium of atmospheric air, which destroy their value.

through the medium of atmospheric air, which destroy their value.

Some persons who do not understand the anatomy and physiology of the human system would be at a loss to know how medicine placed into the rectum could act beneficially on the lungs, but when they understand how the venous blood rushes from any and all parts of the body to the lungs to receive a new charge of oxygen, then they will readily understand how this parasiticide gas, introduced into the peripheral venous circulation (the rectum) is carried along with this blood directly to the lungs.

This method is easy of application and acts directly on the diseased lung tissue, killing the germ of the disease, after which the tubercles heal up, expectoration ceases, the lungs assume a natural and healthy condition, and all of the distressing symptoms of consumption soon disappear. This method practically brings the lungs to the surface of the body, that they may be treated topically the same as can the skin.

Dr. Sweany's system of treatment by hypernutrition for consumption and all diseases of the lungs, blood, brain all diseases of the lungs, blood, brain to the public.

treated topically the same as can the skin.

Dr. Sweany's system of treatment by bypernutrition for consumption and all diseases of the lungs, blood, brain and nervons system consists of a course of forced nutrition, by which new nerve, new muscle, new bone and new tissue of all kinds are made in the body and substituted for the disease from the system by fortifying its enemy, nature, and supplying her with material strength. which she can most effectively use in exterminating disease, etc. Persons gain in actual weight while under this treatment from one-quarter to one pound per day, which means a great deal to a weak and debilitated person.

We could not expect of a body of carpenters to go out on a vacant let, build and construct a house without first having the material necessary to construct the house placed within their reach. Hence, how can we expect nature to reconstruct a debilitated and impoverished system without first having the necessary material to be used in the reconstruction placed within her reach. Dr. Sweany's system of hyperautrition places these materials within nature's reach, and the work goes on to a speedy and happy completion, for nature is a skilled mechanic, a true and energetic workman, a preserver and friend to health.

Dr. Sweany has arranged to completion, for nature is a skilled mechanic, a true and energetic workman, a preserver and friend to health.

Dr. Sweany has arranged to complete two nay be had. The one method kills the germ of the disease, while the where goes to assist nature. What can be the result? Health, happiness and long life.

Los Angeles was meeting with the greatest
opposition from Sacramento and Santa

zealously for the convention. Los Angeles
must secure 28 votes out of 54 to bring the
convention here, but Capt. Barrett expressed belief that this number could be secured. He knew of a good many men who
were going to vote for Los Angeles, but it
was not good policy to tell just where her
strength would come from.

While in San Francisco the committee
waited on General Manager Towne of the
Southern Pacific Railroad, and that gentleman promised to issue round-trip tickets for
the price of a single fare. As the Democratic State Convention has never been held
here, this city stands a good chance of securing it, which would bring 500 delegates
and as many more onlockers, and people
who have never been in Southern California would embrace the opportunity of seeing the country.

"San Francisco, March 22.
"Mr. Sidney Laccy, Los Angeles—Dear Sir: I was not a member of the old committee, therefore not under a pledge. I have done nothing in this matter one way or the other, except to promise Fred Cox to vote for Sacramento, and this I did before I knew that you were going to make a fight vote for Sacramento, and this I did before I knew that you were going to make a fight for the convention. If Los Angeles is willing to concede the next convention to Sacramento, I think they ought to let you have this one, and I shall urge them to do so, but if they insist I can not go back on my promise. From what I hear I think you will get the convention, anyway.

promise. From what I hear I think you will get the convention, anyway.

"Respectfully, A. C. PAULSELL."

"Hon. Sidney Lacey, Los Angeles—My DEAR LACEY: Your letter about the place for holding the State convention reached me in due course, and while I am disinclined to commit myself, I will say that it will require pretty strong arguments at the meeting of the State Central Committee to make me believe that any other place is more suitable at this time and under present circumstances than Los Angeles. t circumstances than Los Angeles. She became alarmed, and asked to be released from her contract, but her employer would not consent, and even threatened to kill her if she did not go with him. The little woman was scared out of her wits, and appealed to her husband for protection, but he was poor and powerless before the man of means. The wealthy Chinaman said he would release her if she would pay him \$50 and the money which he had already given her. She offered him the \$10, but could not raise the \$50, so he would not accept one without the other, and swore he would take the woman by force. About this time a couple of officers happened along, and she appealed to them for protection. Metaphorically speaking, they threw the strong arm of the law around her and she was released.

## JIM ASH AGAIN.

He Abuses His Wife, Is Arrested and Convicted.

James Ash, who earns a living as a barkeeper at the Missing Link saloon, on North
Main street, and has won a somewhat unsavory reputation as a wife-beater, was
brought before Justice Taney yesterday brought before Justice Taney yesterday afternoon on a charge, preferred by his wife, of having brutually ill-used her. When Ash is sober he is a good husband, and knows how to behave himself, but "with the liquor in, the wit is out," and then he becomes a holy terror, loses all self-respect, and whips his wife in a brutal and uncalled for manner.

On Tuesday much last he got beastly.

and uncalled for manner.

On Tuesday night last he got beastly drunk, and proceeded to vent his spieen as usual on his wife. In a few moments she was so frightfully abused that she had to ask assistance from the neighbors to prevent him from beating her to death. The following morning she swore out a complaint charging him with battery, and the case was heard yesterday afternoon, and he was found guilty of the charge.
